- Chance Chart:
1. Draw two cards.
 2. Take a card from another player's hand at random and put it in your hand.
 3. Choose two players to swap hands. You can be one of those players.
 4. Roll the die. You gain one share in the company you rolled. If you roll a 6, you may pick the company you get a share in.
 5. Choose another player to take a card from your hand at random and put it in his or her hand.
 6. Choose another player to roll for Chance (ignoring 6es) and take the effect immediately. After this happens, your turn resumes.
